

# PILLOWCASE

## Materials needed:

3/4 yard for body

1/3 yard for border

Choose bright color prints in woven cotton or flannel only.

Pre-wash your fabric.

Cut your fabric:

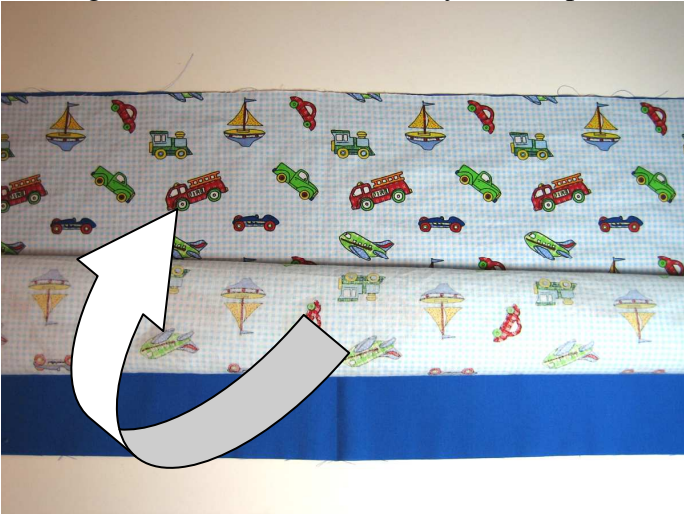

Body: 26 3/4" x 41"

Border: 10 1/2" x 41"

With top raw edges even lay out the border fabric **RIGHT SIDE UP**.  
Place the body fabric **RIGHT SIDE UP** on top.

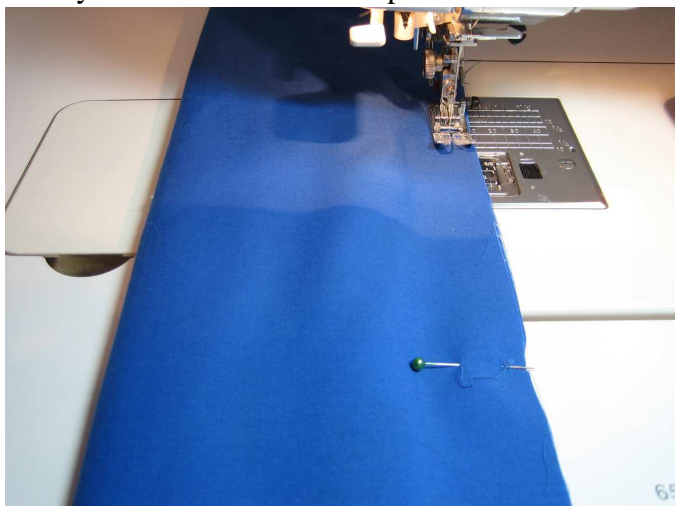

Starting at the bottom, roll the body fabric up until...

...you can fold up the bottom edge of the border to meet top raw edges of the border and body fabric. Pin. You now have the border encasing the body fabric in a rolled up sandwich.

Stitch across the raw edges in a 1/4" seam being careful not to catch the roll of body fabric in the seam. Now you have a tube that is open at both ends.

Turn the tube right side out and unroll the body fabric. Press both sides of the border.

To finish with French seams, place **WRONG** sides together and stitch the side and bottom in a ¼” seam. Trim the seam close to the stitching.

Now place **RIGHT** sides together and pin, placing a label in the seam line and stitch in a ¼” seam.

Now you have beautiful enclosed seams.

Turn the pillowcase right side out and you're done!
